LAWN IRRIGATION USER AGREEMENT

In accordance with East Montgomery Utility District's Cross-connection Control Program, no lawn irrigation shall be connected in any manner to the public water supply unless proper protection against cross-connection is provided. Only reduced pressure backflow prevention (RPBP) devices may be used for protection. These devices must have prior approval by East Montgomery Utility District. Customers not in compliance with this rule will have their water service discontinued.

Check appropriate box

- This serves as notification that the lawn irrigation is connected to the public water supply and has a Reduced Pressure Backflow Preventer (RPBP) installed*
- This serves as notification that the lawn irrigation has been disconnected from the public water system or the lawn irrigation has been removed*

Please type or print (Customer's Full Name)

(Customer's Service Address)

(Customer's Mailing Address)

I (we) understand and agree that this system is , and shall remain totally segregated from the public water supply, and no unapproved or unauthorized cross connections, auxiliary intakes, bypasses, or interconnection will be permitted without the written approval of East Montgomery Utility District.

I (we) further understand and agree that should the lawn irrigation be connected to the public water system at the above address, a Reduced Pressure Backflow Prevention device (RPBP) shall be installed to protect the public water supply.
